in a manner every way superior to any other now in use. By an arrangement of the **SUMMER APPARATUS** a very small fire is required for cooking, and no heat, (except required), need be felt in the house. Another great advantage in this Furnace is a still smaller apparatus for broiling and boiling, the smell of which is entirely carried up the Furnace, and hot water can be sent to any part of the building for baths, &c., whereby a great saving is effected both in fuel and labour.
